

Hydro Dynamic Engineering, a Singapore company that has earned a reputation as an industry leader in providing high quality water tanks and services. With over 26 years of combined experience in the water storage industry.

Your daily need of clean & hygienic water supply is in line with our Vision. Our water tanks are manufactured to meet with worldwide standards from WRAS to our local SS245 & SS22 here in Singapore, to suit the specific and varied needs of our clients locally & globally.

Dynamism, Hydro has always placed ourselves in the end-user's position to understand the needs of our clients. We carry a wide range of water storage products to cater to all aspects of application. Our products ranges from portable water storage, sprinkler & wet riser water storage to chemical solution storage and rainwater harvesting allowing end-users to save water for irrigation purposes.

Reuse, Reduce and Recycle, Hydro's has chosen to focus on being an environmentally responsible company in our journey. We ensure that used and unused metals are re-cycled, fibre-glass are disposed through environmentally safe methods. As a Corporate Socially Responsible company, Hydro contributes to various organizations to help those in-need, with medical needs and also for medical research.

Our customers are the core of our business, the experienced and dedicated Hydro team will continue to strive to provide superior end-to-end service throughout the life of our products.
